

Hello,

I'm Sebastian.

An aspiring User Experience Designer and a current Digital Concept Development student with 2 years of experience working in digital startup environments.

I love creating products which help people.

From a brand book which helps designers and developers understand how to implement a brand, to a boardgame, which helps friends have fun, relax and meet each-other more often, I try to deliver the best possible results by always pushing myself and the team to new heights.

EXPERIENCE

UI, UX, Graphic Designer

Cynny - May 2013 to Present (3 years)

Being the first designer employed, in a fresh startup, challenged me to become more flexible and open-minded.

- User Interface for the Cynny iOS app
- Idea generation and Prototyping
- Collaboration with Developers

Co Owner, Game Designer

Ylem Entertainment - September 2015 to Present (9 months)

Four friends developing a fantasy style RPG board game.

- Art Direction
- Gameplay Mechanics
- Prototyping

Shapeshifting UX Archmage

Factory of Imagination - September 2015 to April 2016 (8 months)

Brewing digital experiences into physical adventures.

- Installation Design
- Concept Development and Storytelling

Student Helper

Lillebælt Academy - August 2014 to Present (1 year 10 months)

Dealing with people from different cultures helps me in developing my sense of empathy and organisation.

- Helping the students adapting to a new country
- Aiding in the organisation of the Intro Week

UI, UX Design Intern

Lillebælt Academy - January to April 2015 (4 months)

Helped in redesigning the academy's website by working in collaboration with a Copenhagen based Media Agency.

- Conducted Usability Testing on the new website design
- Directed and edited the video for the Open House event.

EDUCATION

Bachelor's degree, Digital Concept Development

Lillebælt Academy of Professional Higher Education - September 2015 to Present

Studying in an education which focuses on innovation pushes me to reach new boundaries by developing multi-platform and cross-media solutions.

- Concept and Business Development
- Project Management
- User Experience

AP(hons), Multimedia Design and Communication

Lillebælt Academy of Professional Higher Education - 2013 to 2015

A more diverse education, Multimedia Design helped setting the base for my design thinking.

- Graphic Design
- Business strategies, Communication and Marketing
- Front-end development

Awards:

- Award for Social Engagement
- Award for Highest Average Grade
